

To our valued customers,

We want to take a minute to thank all of you for your continued support during these unprecedented times. We know that the COVID-19 pandemic has caused everyone to reassess different areas of their lives, so your endless support of the Rexburg Farmer's Market is greatly appreciated.

Because we value our customers so much, we are taking extra precautions this year in order to keep both our vendors and patrons safe. As such, the market may look a little differently than in years past. We will be rearranging our vendors to help facilitate social distancing for everyone. We are also implementing a No Touch Market this year, which means customers will simply point to the product they wish to buy, and our vendors will happily bag it. This also means that sampling will not be offered during this time. Furthermore, our vendors are encouraged, but not required to wear masks. They have been provided with masks as an extra safeguard and are limiting the cross contamination of monetary exchanges by limiting one to two employees to this task. We have also made the difficult decision to forgo our DJ and community events for the time being—we are asking customers to make their purchases and not linger. We are hopeful that these extra steps will help keep as many people safe as possible.

In addition to these safety precautions, we are excited to announce an online ordering system new this year! Through a wonderful platform through LocalLine, you can shop on our website and our customers will be able to shop virtually for all their favorite goods and have everything ready for pick up on Fridays. We hope this opportunity allows for even more of our community members to enjoy the Rexburg Farmer's Market.

Rest assured, we are doing everything in our power to bring you the very best products and services we can. We appreciate your patience and understanding during this uncertain time and hope to see everyone soon!

With much gratitude,

The Rexburg Farmer's Market
